

YOU ARE INVITED

to the opening of this year's ICC Arbitration Forum

"Sustainability meets Efficiency in International Arbitration"
on 30 May 2022, 15:00 to 17:30 (CET)

International arbitration offers its users a flexible dispute resolution tool that allows parties to tailor the procedures to their individual needs. If parties, legal representatives and arbitrators agree on efficient procedural management, time- and cost-efficient dispute resolution can be ensured. In the absence of such an understanding, arbitration proceedings can also quickly drag on and costs escalate. With the ICC Arbitration Forum, we will, together with the ICC International Court of Arbitration, our partners as well as national and international experts, discuss current issues surrounding the sustainability and efficiency of international arbitration proceedings and promote Germany as a place of arbitration.

As a global business organization, it is ICC's mission to address the daily challenges faced by businesses of all sizes around the world and to develop and promote solutions through our network with the goal "to make business work for everyone, every day, everywhere". The ICC International Court of Arbitration is the world's leading arbitral institution. Since 1923, it has been helping to resolve difficulties in international commercial and business disputes to support trade and investment.

Following the opening, we are organising a **series of international workshops** with our partners between June and October on current issues and pressing questions in international arbitration:

COMING UP!

June: **Workshop on mediation**, jointly organised with KPMG Law

July: **Workshop on investment protection in Russia**, jointly organised with Herbert Smith Freehills

August: **Workshop on international construction arbitration**, jointly organised with Mayer Brown

September: **Workshop on arbitration in international trade disputes**, jointly organised with Luther

October: **Closing event**, jointly organised with White & Case
